YEAR 5 & 6

Spring 2018

The classrooms have been transformed into industrial buildings such as cotton mills and we have lots of exciting things planned for this term. We are ready to take on our mission and explore our theme, 'From Horse to Horse Power.' Everyone has returned with a positive attitude and are eager to learn. Lots of children have enjoyed showing our value of thankfulness, thinking carefully about how lucky they are. We thank you again for your support in helping your children with their homework, times tables and reading.

Mrs Moss and Mr Hunter

Our Learning Overview

English -diary entries, Recounts and short stories

Maths - Reasoning Style questions, Decimals, Shape and statistics

SPRING Theme

During our theme of 'Horse to Horse Power" the children will study life as a factory worker and explore the industrial revolution. We will look at how Britain changed significantly during the revolution and focus on how children were treated at this time. As Scientists, children will investigate forces and different sources of power.

In Computing, children will look at internet safety and how to stay safe online as well as programming their own factory. Children will develop their coordination and agility skills during PE using the Real PE programme. For Art and DT children will work to create their own bridge focusing on different structures and designs.
